CLIENT: MAJOR SILICON VALLEY-BASED TECH COMPANY

CHALLENGE

We have been provided the actual construction documents and cost related to the building as well as blueprints and we conduct annual tours with client's facilities manager and a team of assessors from the county appraisal district.

From the inception of our efforts working on behalf of this client, we have utilized several proprietary valuation models to keep the taxes as low as possible.

APPROACH

We used the income approach, including actual and forecasted property income.

RESULTS

We have been able to keep the client's Texas property value about **\$400M** below the actual cost, which equates to roughly **\$10M per year** in annual tax savings.
